The tax equity is intended to support the construction of the 75 MW / 300 MWh Hummingbird battery energy storage project in San Jose, California. The project has secured

Battery energy storage systems (BESS) are prescriptively required for newly constructed nonresidential and high-rise multifamily buildings. These systems

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage

Battery energy storage systems (BESS) are prescriptively required for newly constructed nonresidential and high-rise multifamily buildings. These systems support load flexibility by allowing buildings to

Here is a map of all utility-scale battery storage projects in California. Hover over a battery storage project to view information on each project like their name,

A global shift toward renewable energy, electric mobility, and smarter grids is accelerating the need for reliable, flexible, and sustainable power infrastructures. Battery Energy Storage Systems (BESS)

Power developer Arevon Energy Inc. is betting big on renewable energy and battery storage in southern California, starting and completing

The Federal Energy Regulatory Commission (FERC) has approved an agreement between Southern California Edison (SCE) and Longroad Development Co. regarding the interconnection of a

"California is moving faster than ever before to build the clean energy we need - now with the world's largest solar and battery project," said Governor

Explore our portfolio to see how we're powering progress with cutting-edge energy storage solutions that enhance grid reliability, enable renewable integration, and drive long-term sustainability.
