No matter how remote or challenging your mining site is, NEOSUN Energy provides customized off-grid solar power solutions designed for your specific needs. Our reliable and efficient solar systems

Discover our solar container for mining that provides reliable, portable, and sustainable energy for remote mining operations. Ideal for off-grid sites, it reduces costs and environmental impact.

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar arrays, reducing reliance

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no

Skeleton Technologies is an Estonian energy storage developer and manufacturer for AI data center, transportation, grid, and defence applications. Skeleton is developing a novel raw material, curved

No matter how remote or challenging your mining site is, NEOSUN Energy provides customized off-grid solar power solutions designed for your specific needs. Our reliable and efficient solar systems

Our certified solar specialists provide round-the-clock monitoring and support for all installed photovoltaic container systems and battery energy storage containers.

Our consultants provide customized analysis and technical planning for your solar container or solar shipping container project -- based on your site conditions, load profiles, and operational requirements.

Below you will find an array of systems capable of meeting your energy needs when it comes to mineral extraction (irrespective of the raw material being mined), base camp facilities, site security, initial

Design a 40ft solar container for remote solar setup in mining camps, ensuring reliable off-grid power, durability, and fast deployment.
