The IsoCool [®] is a stand-alone battery cooling system creating a temperature zone for backup batteries that is lower than the ambient temperature within the

Specially designed for uninterruptible power supply (UPS) systems, these cabinets house Valve-Regulated Lead-Acid (VRLA) or lithium-ion batteries with built-in safety isolation. Engineered

A Site Battery Storage Cabinet is a modular energy backup unit specifically designed for telecom base stations. It houses lithium-ion batteries (typically LFP), BMS, EMS, and optional thermal

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.

Designed for use in a climate controlled environment, it regulates temperature and provides active smoke monitoring with an alarm system. The ideal upgrade on CellBlock FCS cabinets that are used

Leoch commercial and industrial energy storage system helps enterprises to store electricity in the trough and discharge it in the peak,

NEMA 1: This style battery cabinet is ideal for indoor applications not requiring temperature control. This example is a two door cabinet equipped with standard seismic rated battery rack.

Huijue Group's Mobile Solar Container offers a compact, transportable solar power system with integrated panels, battery storage, and smart management, providing reliable clean energy for off

A high protection class battery cabinet that can be applied as standalone or extension of outdoor power system. The system integrates temperature control

The IsoCool [®] is a stand-alone battery cooling system creating a temperature zone for backup batteries that is lower than the ambient temperature within the shelter. This lower temperature zone ensures
