High-capacity off-grid solar kits for large homes, farms, and small businesses. Complete systems for full off-grid independence.

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar arrays, reducing reliance

This 500kW / 2MWh BESS container integrates lithium battery racks, PCS, BMS, EMS, and safety systems in a 40FT container for fast deployment, stable operation, and scalable energy storage.

Compact 10ft battery storage system for solar, built-in solar battery system and AC coupling technology. Ideal for business continuity and peak shaving.

The MW-class container energy storage system includes key equipment such as energy conversion system and control system. The core technologies are concentrated on battery pack, battery cluster

They integrate lithium batteries, PCS, transformer, air conditioning system, and fire protection system within a single container, offering a comprehensive plug-and-play solution for large-scale power

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary equipment in a single

Large lithium energy storage systems come complete with BMS and charging networks. They come in sizes starting at 500KWh and go up to 10MWh. Many of these systems also can be paralleled for

Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary equipment in a single
