ASG Power delivered fully customized modular power and control cabinets with high-power utility-scale 1500v dc circuit protection and designed to handle a greater number of battery

This Energy Storage Hybrid PCS Cabinet: A versatile solution for industrial and commercial energy storage. Seamlessly integrates grid-connected and off-grid

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage

Our battery energy storage systems are perfect for energy shifting and peak lopping, making them an excellent choice for any renewable energy project. The cabinets are sized to enable mounting of all

With a compact footprint and high energy density, the DC cabin maximizes energy storage capacity while minimizing space requirements. Equipped with an intelligent energy management system, it

With a compact footprint and high energy density, the DC cabin maximizes

Improve integration and maximize utilization of the energy generated from photovoltaics (PV) and wind turbines. Defer upgrades, relieve congestion, control voltage, provide reserves and ancillary

DC Block is a distributed battery energy storage solution engineered for true scalability, supporting multi-site or large-capacity projects with modular, high-density lithium iron phosphate batteries.

DC Cabinet is an advanced liquid-cooled outdoor energy storage cabinet designed to support 200+ kW applications with rapid deployment and a minimal footprint, renowned as its integrated safety features.

Custom design available with standard Unit: DBS48V50S. .... Delta's energy solution can support your business.
