The meaning of MODULAR is of, relating to, or based on a module or a modulus. How to use modular in a sentence.

Simply put, modular homes have sections that are built in a factory, rather than being fully built on a home site. These parts are then transported to the site and assembled by a builder.

This paper provides a comprehensive review of three mature and commercialized

Sodium-sulfur (Na-S) batteries hold great promise for cutting-edge fields due to their high specific capacity, high energy density and high efficiency of charge and discharge.

Constructing a modular home involves creating building modules in a controlled factory environment. (Traditional homes, meanwhile, are built entirely at the construction site.)

Modular buildings (and also modular homes) generally consist of universal parts (or modules) that are manufactured in a factory and then shipped to a build site where they are assembled into a variety of

As a full-service provider of standard and/or custom structures, we design, build and install factory built modular structures in a controlled environment that are Affordable, Safe, Durable and User-Friendly

Modular construction is a process in which a building is constructed off-site, under controlled plant conditions, then assembled on location. But why choose modular? Support the industry's efforts to

Discover architectural lighting crafted for interiors that demand more. At Modular, we combine technical ingenuity with refined aesthetics -- lighting solutions designed to set the perfect mood and bring

Managed simplicity + Self-hosted control. Pick both. Modular eliminates the tradeoff, providing the simplicity of managed inference with engineering-level control.
