Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection,

Incorporating PV storage systems with cutting-edge solar battery storage

Deye outdoor cabinet is an energy storage device designed for outdoor environments. It has an IP65 high protection level and corrosion-resistant materials, and is suitable for harsh conditions such as

This integrated outdoor cabinet features lithium iron phosphate (LFP) batteries, modular PCS, EMS, power distribution, fire protection, and an advanced liquid cooling system that enhances thermal

AZE's outdoor battery system is tailored for small to medium-sized commercial and industrial (C& I) energy storage applications. Its modular design not only minimizes the impact of local failures but

Deye outdoor cabinet is an energy storage device designed for outdoor environments. It has an IP65 high protection level and corrosion-resistant

The 112kWh outdoor energy storage system offers a robust, weatherproof solution for backup and off-grid power. Designed for flexibility and fast deployment, it's ideal for telecom, remote infrastructure,

GSL ENERGY offers a 215kWh all-in-one outdoor ESS cabinet, perfect for comprehensive energy storage solutions in industrial and commercial settings.

Outdoor cabinets from HuiJue are engineered to maintain internal stability even under rapidly changing external temperatures, direct solar radiation, or high humidity.

Yes, the 215kWh energy storage system is designed to seamlessly integrate with solar and wind energy systems. It supports demand-side management and can provide backup power during outages,
