Philippines launches its first hybrid solar-battery plant in Batangas, combining solar power and storage, marking a milestone in renewable energy.

Integrated energy utility Aboitiz Power has kicked off a 30MW hybrid battery energy storage system (BESS) project in the Philippines. The company

A new hybrid solar and battery storage project in Alaminos, Philippines, is significantly enhancing grid stability and increasing renewable energy reliability.

AboitizPower had indicated its goal to build 3,700 MW of new RE capacity on the way to 4,600 MW by 2030. Aligned with the Philippine

Unlike standalone renewable energy ventures, this project retrofits an existing oil-fired power plant. The BESS installation will help stabilize the grid by storing

These hybrid systems, combining oil-fired generation with battery storage, provide rapid-response power to support grid stability through ancillary services--critical functions that ensure

Whether you're visiting a bustling city or chilling out on a beach, prepare for your trip to the Philippines with this eco-friendly guide.

Before you set off to this fabulous Southeast Asian nation, consider familiarizing yourself with these pointers.

The Philippines is an emerging market and a developing and newly industrialized country, whose economy is transitioning from being agricultural to service- and manufacturing-centered. It has a

The Philippines, an archipelago in Southeast Asia, situates itself in the western Pacific Ocean. It shares maritime borders with Vietnam to the west, Taiwan to the north, Palau to the east,
