About this research This Pew Research Center analysis examines Americans' views of the U.S. military action against Iran, which began in February 2026. Pew Research Center conducts

As our reliance on traditional power grids continues to increase, the risk of blackouts and energy shortages becomes more imminent. However, a microgrid system,

Find the research you need | With 160+ million publication pages, 1+ million questions, and 25+ million researchers, this is where everyone can access science

Research has to have an element of discovering something new, of creating knowledge. While a literature search is one important part of a research project, it isn't research in and of itself.

This research article explores the essence, functions, and process of research, with a specific focus on scientific research. In addition, it delves into the characteristics of scientific research ...

The paper concludes by summarizing key findings, outlining avenues for future research, and offering a comprehensive perspective on the
