Engineering, Procurement, & Construction We deliver utility-scale solar, energy storage, and hybrid projects on time and to the highest quality standards.

The project includes a 1,150-megawatt (MW) solar facility with approximately 3.1 million panels and up to 1,150 MW (4,600 megawatt-hours) of battery storage - enough to power 850,000

Doral Renewables is advancing construction of its Cold Creek Solar+Storage project in central Texas, a large-scale hybrid facility combining solar generation and battery storage.

This conceptual site plan shows the proposed layout of the battery energy storage system and supporting infrastructure across 55.5 acres in Orrick, Missouri.

Work on the Cold Creek Solar and Storage Project is scheduled to begin in the first quarter of 2026, with completion expected by the second quarter of 2028. The 340MWh battery

Explore Gridworks" cutting-edge projects in solar EPC, energy storage solutions, and renewable energy near me. Driving clean energy innovation nationwide.

Solar Proponent, a renewable energy company based in Austin, Texas, plans to construct the Dogwood Creek Solar Project. The project is a 506 MWdc and 389 MWac storage capacity in

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is for

SOLV Energy delivers the large-scale solar and battery storage projects that keep these industries powered -- on time and at massive scale. With proven expertise, deep resources and full lifecycle

TransGrid Energy LLC, a wholly-owned subsidiary of Hanwha FutureProof, invests, owns and operates battery storage and solar projects across the United States that will drive the shift to a
