Students use SOLAR to register for classes, print schedules, view and pay bills, update personal contact information, view transcripts, and submit student employment timesheets.

In a nutshell, solar panels generate electricity when photons (those particles of sunlight we just discussed) hit solar cells. The process is called the photovoltaic effect.

Higher wattage incandescent bulbs will allow the solar panel to produce more power, and they will also get hotter with higher wattages. Many desk lamps warn to use bulbs no more powerful
